

# ERA SWAP GREEN PAPER

Decentralized Autonomous Organization

# DISCLAIMER

This Whitepaper is for Era Swap Network, Era Swap utility Token ("ES") & Era Swap Ecosystem ("ESE"). Its purpose is solely to provide prospective community members with information about the ES project, and it is not an offer or solicitation to buy or sell securities of any kind, or to invest in any financial instruments. This Whitepaper is NOT a prospectus and should not be relied upon to make any financial decisions. No person is bound to enter into any contract or binding legal commitment in relation to ES's services. The ownership of this token gives the community member access to the Era Swap Ecosystem and its decentralized Peer to Peer multiple utility platforms. The ES tokens are not intended to constitute securities in any jurisdiction. Securities law protection is not applicable to participants/stakers here because in ESN they can exercise control over their funds and ES generating activity with their own efforts that will determine their success whether or not the enterprise is successful.

Any agreements reached between the ES Promoter and prospective purchasers regarding the ES utility are solely responsible for their own consent. The Era Swap holders or purchaser should not assume presume profit on their stakings or holding ES as ES value completely rely upon the market forces due to its decentralized structure in a Peer-to-Peer Network, and is not dependent on the Promoters/Developers efforts.

The content in the white paper is subject to be updated, changed and omitted as per latest internal or external technology development and dynamic market scenarios without any prior notice. ES platform will follow the best practice, policies, and procedures intended to ensure legal and regulatory compliance in all jurisdictions within which it operates. All ES members will be required to comply with the Know Your Customer (KYC), Anti-Money Laundering (AML) and Combating Financing of Terrorism (CFT) norms with respect to the global standards. Era Swap Foundation reserves the rights to upgrade, iterate, improvise the platform in future and move or add additional blockchain as and when required for the benefit of the community.

# Problems Researched

Era Swap finds that the current market has many problems with the security & privacy of an individual user. Some of the core problems with the current market are deficiency of centralization, data shared to the third party, shared control of data, giving third party permission, unemployment, lack of transparency, heavy middlemen cost, third party transactional costs, unserved, underserved, underdeveloped, underdeveloped, expensive mining process, less usage of blockchain, unbanked, expensive global payment gateways, manipulation, convenience fees, so on.

## Era Swap Mission

DApps Development with Era Swap Utility Token to make Charge-free protocol for the secured peer-to-peer exchange of services and goods Globally

## Era Swap Vision

To be the most Affordable blockchain protocol for the people by the people

## Future Economy and Era Swap

When we see the prospering economic model, they can be classified into three economies. They include the sharing economy, candies economy & decentralized economy. The participant's work format includes individual work, collaborative work & collective work. Starting with the sharing economy, is mostly free, reputation-driven, and work can be done individually or collaboratively. The second type of economy is the candy economy which gives individuals some revenue in the form of bounty, tips, or as revenue sharing for collaborative work. The third one is the transformational all-new Decentralized economy that gives next-level options like security, low-cost transactions, standardization, accuracy, transparency, autonomy, voting power, and revenue sharing using smart contracts. In a decentralized economy, people work collectively to reach the goals of the organization as the top priority.

**Era Swap** is designed to be a future self-sustainable Economy powered by Charge-free Blockchain Network that delivers privacy, security, and scalability. Era Swap DAO is based on a Decentralized Structure where users interact and exchange value peer-to-peer with Era Swap (ES) Utility Token.

Era Swap uses the consensus mechanism to align the interests of the users towards the goals of the organization. Here, the Interests of the participant's members where Stakeholders are aligned towards the incentive rules tied to the Era Swap native token. To approve proposals, stakeholders should vote to reach the majority of 66% consensus in Era Swap DAO. Era Swap uses Web 3.0 i.e., 3rd generation of the internet where the devices are connected in a decentralized network rather than depending on the server-based databases.

## No More Fee Worries

Era Swap offers charge-free transactions since 2020. In 2017, Era Swap had this vision to engineer value to offer incentives and build a Charge-free network model for the community which is a significant bottleneck for De-Fi Usage in Era Swap Ecosystem as well as industry. After a successful test net in 2019, Era Swap erupted as seamless successful Charge-free blockchain infrastructure providers for any Web 3.0 based De-Fi Solutions.

**Era Swap is a Decentralized Autonomous Organization (DAO)** that is governed by a set of software rules on Blockchain. Era Swap DAO uses a consensus mechanism to reach the goals of the organization with its stakeholders. Era Swap DAO will have 37 interlinked smart contracts / DApps stored in Era Swap Blockchain Network with pre-defined tools that automatically execute when certain conditions are met. The users can trust the outcome as accurate. Era Swap DAO uses PoS Validators which do the management part in Era Swap Network. TimeAlly Smart Contract is the governing protocol that rewards as per the behaviors of participants present in the network.

## Stake Holder is Owner

Era Swap DAO enables stake owner to have a single point of authentication and authorization Autonomy that preclude the need for many centralized administrators or middlemen costs. Era Swap DAO supports 66% consensus management with PoS Validation by stake owners instead of any kind of legal contract. The ownership and rewards are given in proportion to Era Swap TimeAlly 1LT Stake holding, the supervision is done autonomously by Blokcee and Kami software and independent contractors can be ecosystem workforce. TimeAlly Smart Contract is the governing protocol that rewards as per the behaviors of participants present in the network.

# Environment-friendly blockchain

Being aware of that to run a standard proof of work blockchain protocol can be demanding which is why with a lot of research, smart work, and time Era Swap has developed a responsible and environment-friendly layer-2 blockchain solution for the masses. This means stakeholders can mine Era Swap by simply delegating their stakes to trusted validator nodes. Here Stakeholder can participate in data validation without any technical expertise, special hardware, taxing electricity consumption, dedicated air-conditioning, or high-speed Internet. Stakeholders earn their monthly delegation share with no noise pollution, no heat produced, no depreciation of infrastructure, no man management, no space management, no human interference, no energy, and no time is wasted resulting in minimal carbon footprint thus network runs with negligible damage to the environment.

## WHAT MAKES PROJECT ERA SWAP UNIQUE?

1. Scalable, Stable, Transparent, Secured, and Reliable Blockchain Network
2. Charge-free Blockchain Network
3. Environments friendly
4. Speed (Currently 5 Sec per Block)
5. Single Sign-on to Entire ES Decentralized Ecosystem
6. Ecosystem designed for multiple tasks and Day-to-day activities at one place
7. Era Swap Rewards & Incentivizing culture
8. Multi-Level KYC Verifications
9. PoS-based Blockchain
10. Kami – The Guardian of Era Swap Network
11. Merkle Swap – where you can convert your native tokens to Ethereum ERC20 and another way round
12. Create & Launch New applications free of cost
13. 4 Staking Plans to Choose – 1LT, PET, TSAGP, and Angel
14. Web and App Alpha Versions are live
15. Delivered accurate Staking rewards from 2019
16. Recorded 22,185,788 + charge-free transactions on Era Swap Blockchain.
17. Ecosystem with 35000+ Airdrop participants and 7000 Day Swappers Referral program participants.
18. Accuracy in distributing Era Swap Mining Rewards since Nov 2020

# SWAP TO NEXT ERA WITH ERA SWAP

Era Swap DAO has 3 engines namely Era Swap Decentralized Network (ESN), Era Swap Decentralized Token (ES), Era Swap Decentralized Ecosystem (ESE)

## Era Swap Charge-free Blockchain Network (ESN) <https://eraswap.info/>

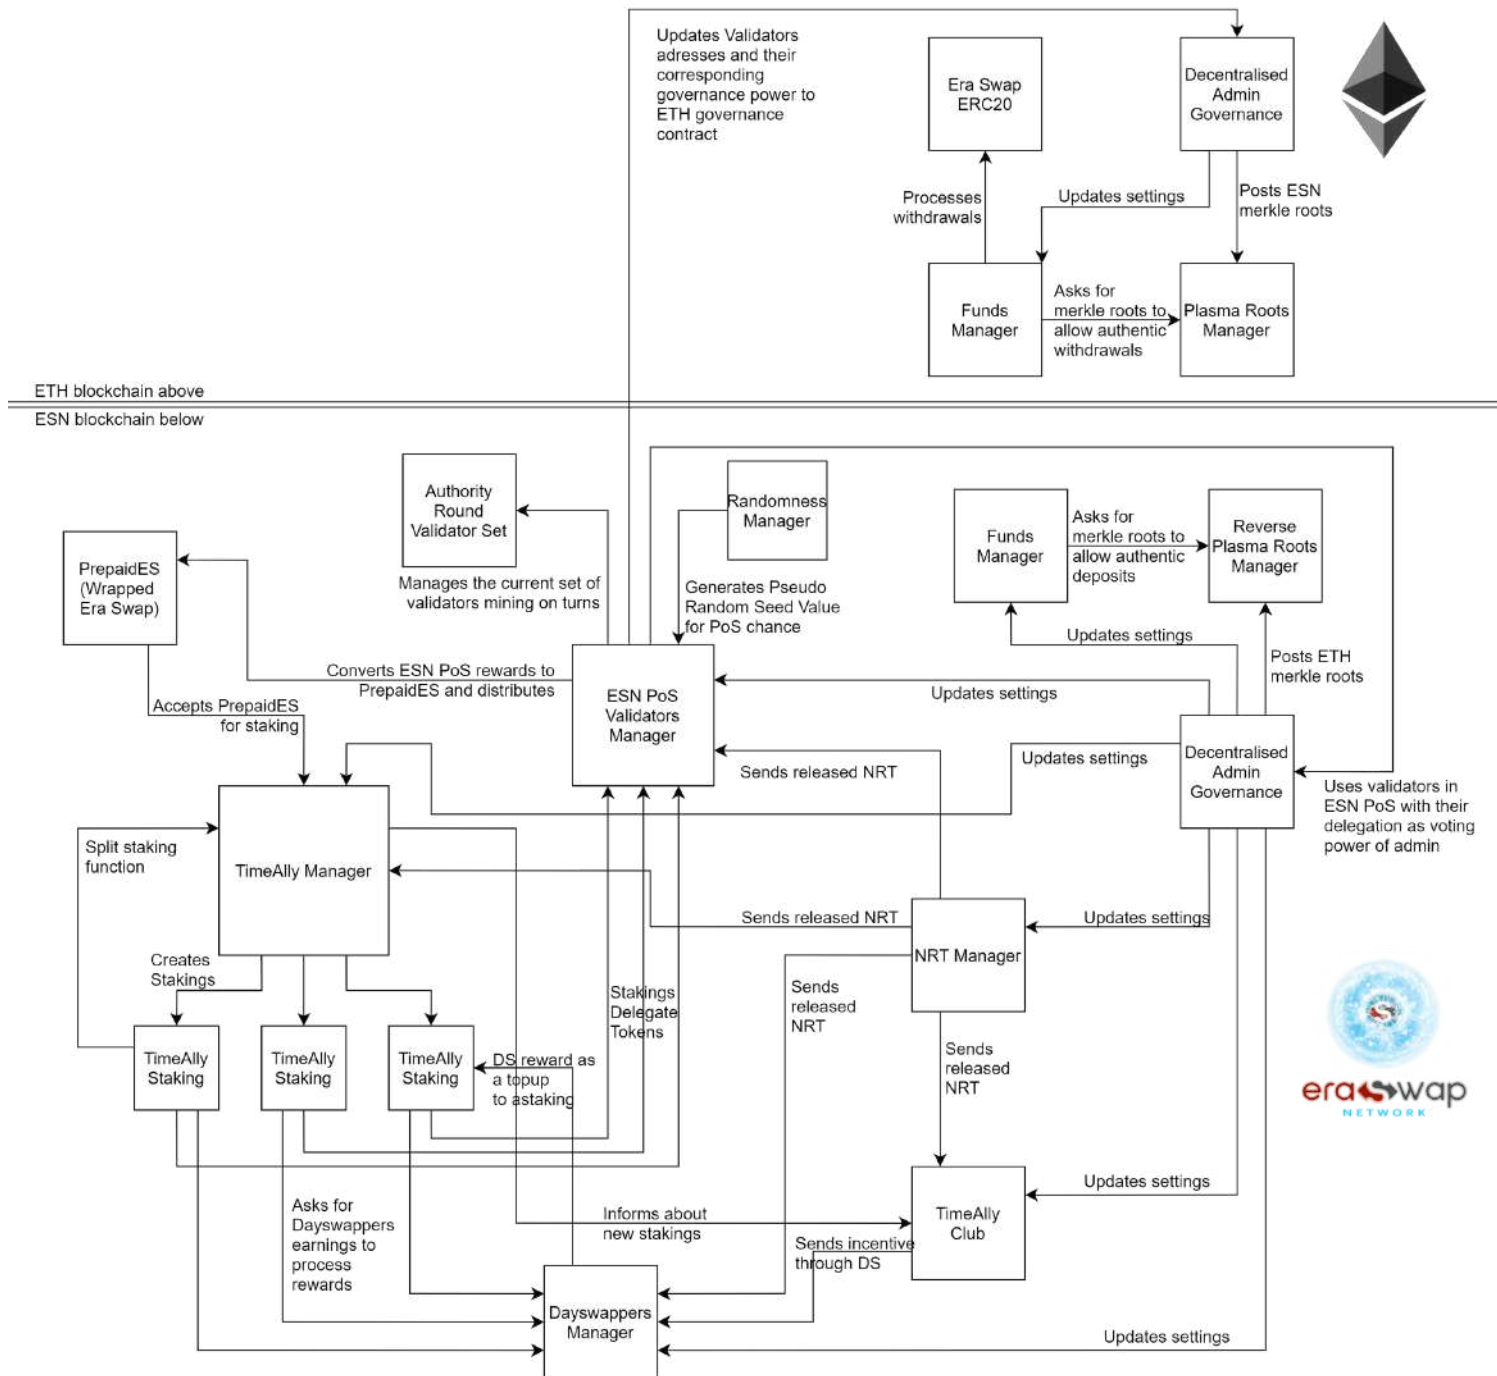

Era Swap Charge-free Blockchain Network allows multiple cloud computing users to enter a loosely coupled Peer-to-Peer Smart Contract to mine Era Swap. ESN leverages the decentralized security of Ethereum, and the scalability can be achieved through a sidechain. ESN can give 500 Transactions in every 5-second at 99.99 % lower cost (Currently Free) than doing transactions on Ethereum Blockchain. Era Swap Network currently allows 8600000+ Transactions per Day which is further scalable to 43000000+ per Day in Beta Version, with a Block Time of 5 Seconds. Era Swap Network has successfully mined 3097483 Blocks Recorded 20000000+ Transactions at a zero-transaction cost as we speak,

ESN Chain ID – 5197 - <https://chainid.network/>

## BENEFITS OF ERA SWAP BLOCKCHAIN NETWORK

- ESN is Charge-free
- Security
- Speed
- Standardization
- Accuracy
- Transparency
- Autonomy

# Era Swap Decentralized Autonomous Organization (DAO) Architecture

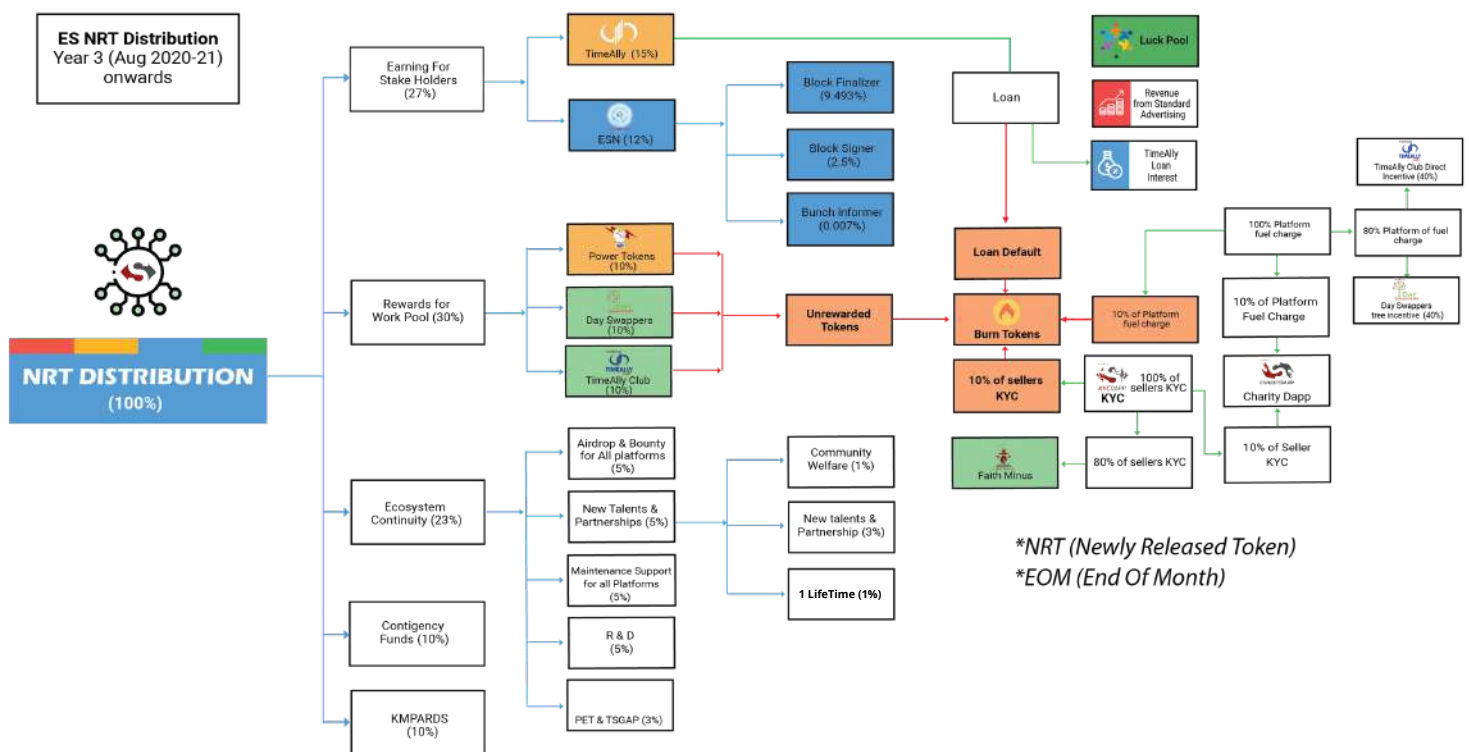

# Era Swap Utility Token <https://eraswaptoken.io/>

Era Swap Token is a decentralized utility token that allows holders for P2P Exchange using Smart Contracts within Era Swap Decentralized Ecosystem. Era Swap is a native token of Era Swap Network blockchain proof-of-stake Consensus Protocol, designed to optimize utilization in Era Swap Decentralized Ecosystem & Strengthen Decentralized Era Swap Network for long-term viability. It is utilized for transactions, transaction fees, mining, and staking rewards on Era Swap Network.

Utility Token HOwey Test of Era Swap. Era Swap is not a security  
<https://eraswaptoken.io/pdf/era-swap-howe-test-letter-august7-2018.pdf>

## Era Swap Token (ES) NRT Distribution: \*NRT: Newly Released Tokens

All new tokens from the newly released token (NRT) will be released through TimeAlly DApp as per the distribution chart. New Era Swap Supply reduces by 10% every year from the previous year's supply.

In Burning Rule numbers of ES are permanently removed from ES circulation. Token Burn sources - 10% ES collected from KYC Dapp, 10% ES of Fuel collected from ecosystem platforms, unused rewards, destroyed staking when a borrower chooses to default repayment of loan or interest

## On 15th March 2022

Max ES Supply - 9100000000

Available ES Supply - 2244027979

Total ES Supply - 2853077506

Total ES Burnt - 609049526

Circulating Supply - 1382823444

ES holders - 16738

Private sale - 110000000

Unsold Private sale stakes – 510000000

Initial Private Sale – 3,92,517 USD

Returns Paid Back to Intial Investors Exit – 6,54,195 USD

Founder Investment – 8,50,454 USD

Development Partner Companies -6

Line of Codes – 10 million+

Count of Developers Contributed – 67

International Advisor – 57

Current Market Cap - 2,48,49891 USD

Fully Diluted Market Cap: 177,450,000.34 USD

Note:- All ES count is in Millions									

## Terms & Conditions:

\*Future is Unpredictable. Also, users can be participants on multiple platforms. These illustrations are to give tentative forecast assuming Userbase from 2020 to 2050

\*Considering NRT distribution chart only 50% of total NRT will come in ES Liquid

\*NRT distribution shall reduce by 10% every year

\*Burning limit of tokens is upto 2% of the total available tokens per month

\*Liquid ES required per user is considered on 36 transactions per year with an average of 300 ES per transaction

\*These illustrations are to give the tentative forecast assuming Era Swap Community is 0.002% of Global \Userbase with 20% efficiency from 2022 to 2050.

To explore in detail, visit <https://eraswap.info>

# Era Swap Ecosystem

<https://eraswap.life/>

Era Swap decentralized ecosystem is based on Web 3.0 where the devices are connected in an Era Swap Decentralized Network rather than depending on server-based databases. It intends to eliminate the need to involve a mutually acceptable trusted third party for P2P Exchange using cost-efficient Era Swap Blockchain Network (ESN). It consists of 14+ Interlined DApps, where ES utility tokens can be utilized and exchanged.

The benefits of Web 3.0 are Anti-monopoly and Pro-privacy; Secure Network, Data Ownership, No interruption in service, Permissionless Blockchain, Semantic Web, Ubiquity, and more.

There is a total of 14+ ES Utility Platforms ready and more in making, the followings are some of them, (Step by Step Guiding Video Links of EraSwap Dapps with Website Links)

**Swappers Wall** – Blockchain-based Social Networking Platform where quality content can be rewarded

<https://www.youtube.com/watch?v=R0RHTE-Un-w>  
<https://swapperswall.com/>

**Time Swappers** – P2P Marketplace for service providers

[https://www.youtube.com/watch?v=P\\_4G5wZEPnc](https://www.youtube.com/watch?v=P_4G5wZEPnc)  
<https://www.timeswappers.com/>

**BuzCafe** – P2P Marketplace for Local Shops and Businesses to become Atmanirbhar

<https://www.youtube.com/watch?v=1xMarsDy7lc>  
<https://www.buzcafe.com/>

**Day Swappers** – In house affiliate marketing program to bring more and more users on-board

<https://www.youtube.com/watch?v=I4wA-O2LqV8>  
<https://dayswappers.com/>

**BetDeEx** – Prediction Platform where predictor and person who run contests can increase their ES Counts

<https://www.timeally.io/assurance>

**Era Swap Explorer** – Era Swap Blockchain Explorer where you get Information, Stats, Analytics, and more about ES and ESN in one place

<https://www.youtube.com/watch?v=mV3aGzX7NQE>  
<https://eraswap.info/>

**KYCDApp** – All in one KYC-Stop to manage KYC Process of all marketplaces of Era Swap Ecosystem

<https://www.youtube.com/watch?v=ukq5w5bO5Sc&t=2s>  
<https://kycdapp.com/>

**CouponDApp** – Transfer ES Tokens using Coupon Codes via Mail and Messaging platforms like WhatsApp  
<https://www.youtube.com/watch?v=okqPLwa5u9g>  
<https://coupondapp.com/>

**CertiDApp** – Blockchain-based Digital Certificate Issuers for Institutions  
[https://www.youtube.com/watch?v=yfKvbAJQ\\_eY](https://www.youtube.com/watch?v=yfKvbAJQ_eY)  
<https://certidapp.com/>

**BookingDApp** – Sell and Book event tickets in P2P  
<https://www.youtube.com/watch?v=ywfj9h1lnCM>  
<https://bookingdapp.com/>

**RentingDApp** – Rent and Lease in P2P  
<https://www.youtube.com/watch?v=AUYopnXW6xM>  
<https://rentingdapp.com/>

**CharityDApp** – P2P Charity Platform where verified organizations and individuals can raise funds for their Charitable Cause.  
<https://www.youtube.com/watch?v=yTm5IN1X0sY>  
<https://charitydapp.com/>

**Era Swap Cloud** - P2P decentralized network for storing and sharing data in a distributed IPFS enabling users to even buy and sell unused storage using ES.  
<https://www.youtube.com/watch?v=YYlt7SySXc4>  
<https://eraswap.cloud/>

**CureDApp** - Here users can book appointment with doctors , keeps health records and medical reports on blockchain securely.  
<https://www.youtube.com/watch?v=3DUv-fGulzs>  
<https://www.curedapp.com/>

**SurveysDApp** - Organization and individual can opt for decentralized review and survey on Blockchain  
<https://www.youtube.com/watch?v=bQ9KigMrNS0>  
<https://surveysdapp.com/>

**Merkle Swap** - Token Bridge for Era Swap Community to swap ES ERC20 Tokens (ES) from Ethereum main net to Era Swap Native (ES-Na) of Era Swap Blockchain Network  
[https://www.youtube.com/watch?v=6P7r2bGn\\_kE](https://www.youtube.com/watch?v=6P7r2bGn_kE)  
<https://merkleswap.com/>

**Era Swap Wallet** - CryptoCurrency Security Standard (CCSS) compliant Hierarchical Deterministic decentralized web Wallet(HD Wallet) which supports storage of ES Native, WES, Ethereum, and any ERC20 token.  
<https://www.youtube.com/watch?v=KtMEXGDoY7M>  
<https://eraswapwallet.com/>

**Visit Web 3.0 based** - <https://www.eraswap.life/>

**1DAAP app** - <https://play.google.com/store/apps/details?id=com.eraswaponeapp>

**Era Swap Life & 1DAAP** are single sign-on gateway apps to Era Swap Ecosystem Platforms, which have interlinked platforms of ecosystem incorporated and the team is working every day to make it more seamless and user-friendly.

## Era Swap Market Positioning

With the inclusion of Blockchain in 2008, there are a total of 5 phases that have occurred in Blockchain development. Phase 1 (2009-2012) was a Proof of concept for Blockchain i.e., Bitcoin for niche adopters. With Phase 2 (2013-2014) Blockchain was on infrastructure development that includes exchange, wallet, custody & payment. In Phase 3 (2015-2017) deployment of smart contracts takes place and the first application was created in financial use-cases which lets users do micro-payment, remittance, and cross-border payment. Phase 4 (2017-2018) was an exploratory phase that includes DApps, PCs, ICO. Blockchain got validation in Phase 5 (2019-2020) with proven use-cases like successful DApps & Blockchain Improvements.

Phase 6 (2021 onwards) Era Swap stands to disrupt monopolies with continuous development & innovation of competitive DApps with scalable & efficient blockchain supported by Decentralized Autonomous Organization (DAO) infrastructure.

## Social Awareness – e Learning'

An initiative called "Build in Blockchain" Trained more than 5000 students free of Cost on Blockchain Coding and 1600+ students Certified on Blockchain on scholarship. In Memorandum of Understanding with 17 Engineering Colleges and Universities for FDP and internal training. Developed curriculum for students, faculty, and employees internal and external trainings with content development, 500 hours of video training and quiz's on Blockchain, AI & ML, Deep Learning, IoT, Networking and Ethical Hacking, Objective C & iOS, Digital Marketing, and Software Testing.

# ERA SWAP (ES)

## CONCLUSION

- Era Swap is a unique combination of multiple DApps integrated into one ecosystem powered by One utility token and one decentralized Era Swap Blockchain Network to become self-sustainable as the community is empowered to earn their rewards with their own effort without any centralized authority.
- Era Swap Network (ESN) uses Proof of Stake (PoS) Consensus Mechanism - It is a fault-tolerant mechanism used in Blockchain systems.
- All the Staker should participate not just to earn profits but to protect the interest of the ESN and their own long term Era Swap Stakings.
- Era Swap Network (ESN) is a decentralized Blockchain Network, and the growth of ESN is solely dependent on the community and doesn't depend on the Promoters/ Developers. In ESN, a person can create liquidity with their own efforts and solely responsible for the rewards generation.
- Era Swap Network is an EVM-compatible sidechain attached to the Ethereum blockchain through Plasma Framework. This allows off-chain processing of Era Swap Ecosystem transactions and posting only the hash of the bunch to Ethereum. This greatly reduces the high network fee and confirmation time issues faced by the current Era Swap Ecosystem DApps deployed on Ethereum.
- ESN is an EVM-compatible blockchain tailored to Era Swap Ecosystem that improves the user experience to a higher extent. Since by design, Plasma Framework makes the Era Swap Network as secure as the Ethereum Network, user's funds on the network would be secure as well.
- Era Swap Network will help scale dApps of Era Swap Ecosystem to onboard the increasing numbers of users and provide solutions for common man problems because it is efficient, fast & affordable.
- Era Swap utility token is subject to Market Risk. Every participant or purchaser of Era Swap should rely completely upon external Market forces dictating the value of Era Swap instead of relying on Promoters/Developers to enhance the value of Era Swap.
- Era Swap is a decentralized utility token used for the exchange of multi-utility products & services which can have future demand for multiple utilities.
- Era Swap Token is a carefully crafted Tokenomics where the community will be able to participate and generate maximum benefits by maximizing its contribution.
- Era Swap Ecosystem uses Era Swap Blockchain Network to connect with multiple platforms to exchange the value of services with community members.
- Era Swap Ecosystem will welcome all Next technologies enthusiasts & Developers to come and build their DApps on Era Swap Network and the leverage Era Swap ecosystem. Era Swap is committed to create the largest spread of services, one can avail using utility token.

## **Statuary Warning**

Digital Assets are extremely high-risk, speculative products. Participants in Era Swap Ecosystem (ESE) should be aware of the risks involved and fully consider before participating in Digital assets whether it's appropriate for you. Users should only participate if you are an experienced investor with sophisticated knowledge of financial markets and you fully understand the risks associated with digital assets. The Users are strongly advise to take independent professional advice before making any investment or participating in any way. Users should check what rules and protections apply to your respective jurisdictions before investing or participating in any way. The Developers or Promoters will not compensate you for any losses from trading, investment or participating in any way as it relies completely on Market Forces. Users should read whitepaper carefully before participating and consider whether these products or services are right for you. Era Swap Token is subject to Market Risk. Please read Whitepaper, Terms & Conditions and policies of Era Swap Life and all the utility platforms of Era Swap Ecosystem before participating.

## **Privacy Policy**

The profile of all the members on the platform shall be explicitly confidential and not disclosed to any other member of the platform unless express consent is sought by the member. The KYC is mandatory in ESN to mitigate the risk of scammers who Perform Fake KYC & Attempt to Create Multiple Wallets for conducting any malicious activity for accumulating Tokens, Trading, or earning any rewards. Data will be held in a distributed fashion. This is important to avoid the user data breaches that befall centralized databases. The use of KYC (know your customer) is always a balance between the freedom of anonymous use of Digital assets and the ability to interact with other businesses, banking institutions, and all countries. We have made the decision to use KYC on all purchase of tokens, distribution of AirDrop & Bounty for the good and long-term success of the ERA SWAP community.

# **THANK YOU**
